

Chamber Music

The Chamber Music program provides students an opportunity to create, rehearse, and perform in their own small groups (trios, quartets, quintets) made up of their peers and friends.

Chamber music is an excellent opportunity for students to explore and experience professional freelance performing conditions. All repertoire is provided; students may create their own “setlists” based on their interests and likes.

Students create their own groups and meet at least once a week with a coaching director. Students are encouraged to meet outside of their weekly rehearsal.

Rehearsal Schedule

Weekly, by appointment
