

TREP\$

Advisor – Sherylee Caramucci

TREPS, a trendy term for young entrepreneurs, is the award-winning, entrepreneurship education program that provides the right situation for the kids in your school to become *extraordinary*. TREP\$ gets kids excited to come to school and helps children to think big.

Kids love entrepreneurship -- it's creative, empowering, and money-making! And since the kids decide what type of product they want to sell, according to their own interests or hobbies, TREP\$ reaches the kids that teachers sometimes can't.

Another unique characteristic of TREP\$ is that the kids really want to learn this. They love the idea of being taken seriously. They quickly learn that they need to behave professionally, and they do! The connection between hard work and success is made in the Workshops. They choose success as their goal, and with the help of TREP\$, learn the path that will take them there.

The path may end with the TREP\$ Marketplace, but there's a lot to learn before then! In the Workshops the children collaborate on teams, make presentations, think creatively, act professionally, support one another, take risks, and work hard, having fun all the while. All of their effort pays off at the TREP\$ Marketplace.

Meeting dates: 11/28 (interest meeting), 12/14 permission slips due & T-shirt money, 1/9, 2/6, 3/6, 4/10, 5/1, May TREP\$ market TBA
